

## 14" x 14" (350 mm x 350 mm) Hydraulic Cutter Suction Dredge

The Series 870JD **JET DRAGON**® cutterhead dredge is a unique deep digging dredge for obtaining sand and other materials at reasonably deep depths. Features include:

- Highly portable for trucking to inland locations.
- Jet assist pump for high production rate in deep digging applications without the complications of a Ladder Pump.
- State-of-the-Art PLC based control system.
- Dual water nozzles at cutter assists in cleaning and dislodging material.
- Pumping capacity powered by 575 HP (431 kW) engine with 100 HP (74 kW) cutter drive and 385 HP (289 kW) auxiliary engine.
- Typical uses include sand and gravel mining, land reclamation and smaller contractor applications.
